		Last Day of School	

Calendar is subject to change

Summer Reading Requirements for 5th Grade

5th Grade:

Each student must read 2 book of their choice over the summer. The books must have a reading level no less than 4.5 and no greater than 7.0 and be worth at least 2 points. In order to confirm that each book is an AR book and the reading level is appropriate, students can log onto www.arbookfind.com. Students must complete and submit an **RCW** report on each book, and they are due the first week of class.

RCW: R/Read, C/Close, W/Write

Read the chapter, **close** the book, and **write** a paragraph on what the chapter was about. The paragraph should highlight the 5 W's of the chapter; who, what, when, where, and why. This is a great exercise to reinforce reading comprehension and to keep writing skills sharp.

During the first week of school students will take AR tests on their summer reading, this will count as the first reading grade. Please note it does not count toward the first quarter AR requirement. Students can go to www.bookadventure.com to take practice AR tests.

5th graders also have the opportunity to log onto their I-Ready account and take reading practice tests. I-Ready is not required, but it is a valuable tool that will reinforce reading skills.

Remember that reading is a skill that gets better with practice...have fun!

STUDENTS ENTERING 5TH GRADE:

5TH GRADE MATH – SUMMER REQUIREMENTS

Dear Parents,

In order to maintain math skills during the summer months, your student is required to complete the following assignments.

First Assignment:

- 1 Visit www.sadlier-oxford.com
- 2 Go to the drop down for Mathematics and select Progress in Mathematics, K-6
- 3 On the right hand side of the page, select "Sadlier Connect Resources Student & Family"
- 4 Click on "Grade 5"
- 5 Click on "Skills Update" (This will review the skills from 4th grade to prepare for 5th grade.)
- 6 Print and complete all 21 student practice pages
- 7 If your child is having difficulty with a practice, click on the lesson review for an explanation of the skill.

All 21 practice reviews will be collected as a grade on the first day of the next school year. It is suggested that your child do 2 or 3 lessons each week so they do not struggle with completing the assignments at the end of the summer.

Second Requirement:

1. All students must have multiplication tables memorized. (from 0 – 12)
2. Students will be tested on all multiplication facts the first week of school.
3. They must be able to complete 100 random problems in 6 minutes.

Thank you for supporting us in our mission to educate your child.
